Human Proteinpedia

Pathways

PhosphoMotif Finder

Reverse a Nucleotide Sequence

Molecular Class

Receptor  
tyrosine kinase

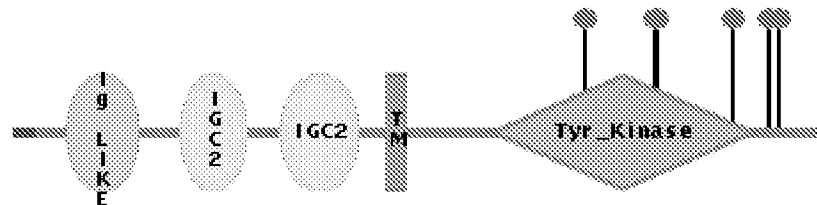

Molecular Function

Transmembrane  
receptor protein  
tyrosine kinase  
activity

Biological Process

Enzyme linked  
receptor protein  
signaling  
pathway ;  
Cellular  
morphogenesis  
during  
differentiation

### Isoform 1

GO TO:

SUMMARY SEQUENCE INTERACTIONS  
ALTERNATE NAMES DISEASES PTMs & SUBSTRATES EXTERNAL LINKS

### ALTERNATE NAMES

ACH
CEK2
FGF R3
Fibroblast growth factor receptor 3
HSFGFR3EX
Human tyrosine kinase JTK4
Hydroxyaryl-protein kinase
JTK4

## || Isoform Specific ALTERNATE NAMES ||

Fibroblast growth factor receptor 3 isoform
